

stay connected and protected

With cyber protection features from
Allstate Identity Protection

Get award-winning^Δ personal cybersecurity for evolving threats.

What sets Allstate Identity Protection apart?

- The most advanced behavioral malware detection in the market
- Our military-grade VPN comes with:
 - Over 4000 servers to stay safe without sacrificing speed
 - Split-tunneling and internet kill switch that provides a more secure connection for remote workers
 - Ad blocking that reduces the risk of malware and adware
 - Anti-tracking software that secures online privacy
 - Multi-factor authentication that guards against compromised passwords
 - Dynamic detective technology that protects against known and never-before-seen threats
- A file shredder to safely delete files and make them completely unrecoverable — permanently
- Device security that's up to 2.5 times faster during startup than a leading competitive product¹, with less impact on your device performance²
