Simple ways to help you save

Here are a few good-to-know things you can do to help you get more out of your health plan.

Stay in the network

The doctors and facilities in the network may have agreed to provide services at a discount – so visiting an out-of-network provider could end up costing you more for care or may not be covered at all. Sign in to myuhc.com > **Find Care & Costs** to locate:

- Labs
- Mental health professionals
- Network providers
- Hospitals

Shop around

With such a wide variety of services – from minor procedures to major surgeries – it's a good idea to check approximate pricing first. Visit myuhc.com > **Find Care & Costs** to estimate your costs.

With a PCP, there's a doctor in your corner

A PCP is a primary care provider, sometimes called a primary care physician. They are the doctor who can help connect you to the care you need – and may help you avoid cost surprises. A PCP can be a family practitioner, internist, pediatrician or general medicine physician.* Although your plan may not require you and each covered family member to select a network PCP,** it can be a good idea to have one.

Your PCP:

Generally knows your health history and health goals

Provides routine care, which may help identify potential health issues earlier

Advises you when to see a specialist and provides electronic referrals

*Laws in some states allow you to choose a specialist, like an OB/GYN, as your PCP.
**Depending on your health plan, selection of a PCP may be required.

Keep up on preventive care

Preventive care – such as routine wellness exams and certain recommended screenings and immunizations – is covered by most of our plans when you see network providers. A preventive care visit may be a good time to help establish your relationship and create a connection for future medical services. Learn more at uhc.com/health-and-wellness/preventive-care.

Find a network provider

Sign in to myuhc.com > **Find Care & Costs** to find a network PCP, clinic, hospital or lab based on location, specialty, availability, hours of operation and more. You can even see patient ratings and estimate the cost of care before you choose a provider. If you would like more information about a provider's qualifications, call the member phone number on your ID card.

Choose a doctor

UnitedHealth Premium® helps you make more informed choices for your medical care, evaluating physicians in various specialties to identify those who meet certain quality care criteria, which includes safe, timely, effective and efficient care. Go to myuhc.com or the UnitedHealthcare app, click **Find a Provider** and look for the blue hearts next to the provider's name.

Here's an example of how a typical health plan works

Let's take a look at an example of how a typical plan works when you receive care from a network provider. Your plan may be different than this example, so to find your specific details go to myuhc.com > Coverage & Benefits.

Plan start

You pay 100%*

At the start of your plan year, you pay 100% of your covered health services until you meet your **deductible**, which is the amount you pay before your plan starts sharing costs.

Deductible reached

You pay 20%

Your plan pays 80%

Now, your health plan starts to share a percentage of the costs with you – this is your **coinsurance**.*

Out-of-pocket limit met

Your plan pays 100%

Here, your plan's got you covered at 100%. Your **out-of-pocket limit** is the most you could pay for covered services in a plan year – copays and coinsurance count toward this.

Along the way, you may also be required to pay a fixed amount – or **copay** – each time you see a provider.

*Your deductible and coinsurance may vary by plan or service. This example is for illustrative purposes only. Please refer to your official plan documents for coverage details.

Here's what to do if you need:

Hospital care

Talk to your PCP first to determine which hospital in your network can meet your medical or surgical needs. You or the admitting physician may be required to notify us before you're admitted.

Prior authorization

Your plan may also require prior authorization, sometimes called preauthorization, before you receive certain services. Call the member phone number on your ID card or sign in at myuhc.com > Coverage & Benefits to check if prior authorization is needed.

Referrals

If your ID card says "Referrals Required," have your PCP send us an electronic referral before you make an appointment with a specialist or other network provider. Without it, your care may not be covered and you may end up paying more. To learn what services require referrals, or to confirm that a referral has been made, sign in at myuhc.com > Coverage & Benefits.

Take a look at how copays, deductibles and more work together throughout your plan year.
